# LINCOLN

**There are those who travel,  
and those who travel well.**

When you consider its quality in design, function, durability and comfort, it is readily apparent why Lincoln Town Car remains the first choice of livery operators throughout the United States. It is also available in two models — the standard Executive and the Executive L, featuring a factory-built 6-inch stretched wheelbase (123.7 inches) offering a substantial increase in rear legroom for even greater passenger comfort. Denver Lincoln Limousine in 2000 upgraded its fleet of Lincoln Town cars to the NEW Lincoln L series Town Car.

Since 1988 we have put passenger safety as our first priority. Our vehicles have GPS tracking, DriveCam video protection, and daytime running lights. We guarantee all our stretches you charter are properly INSURED, REGISTERED, (V.I.N.

on stretches start "1L1" not "1LN" and the BODY type is "LM"), or the trip is complimentary. Make a SAFE, SMART choice for your luxury transportation. Book four hours for your wedding at regular rates and receive a free Metro Denver transfer to DIA in a L series Town Car.

The 85" and 120" DaBryan executive stretched Lincoln Town Car provides a solid basis for the finest limousines in the industry. DaBryan has set the standards to become the envy of the coach builders nationwide. We will only purchase and put into commercial service stretched vehicles built by DaBryan Coach Builders. With over 25 years of experience in building, and one of a handful of Qualified Vehicle Modifiers (Q.V.M.s), and Custom Master Coach builders (C.M.C.), they are well known for crafting exquisite stretched limousines.
